

NEHEMIAH #7 – REBUILDING BROKENNESS

Leadership is Needed

1. What was the last thing to be done once the walls were completely rebuilt?
2. After the wall was completed, what did Nehemiah get organized?
3. Why did Nehemiah gather the people together? What did Nehemiah attribute this next step to? (v 4)

Nehemiah wanted to determine who was in the city and perhaps where their homes would be if they would rebuild. He could also determine who was eligible to minister in the temple and receive funds from the people for full time ministry. He was rebuilding the spiritual leadership of the country.

4. Has God put something in your heart? Have you been able to successfully complete it yet? Could you share it with the group? Is there anything we as a group can do to see this "heart thing" become reality?
5. Please share with the group your thinking so far on the Transitional Pastor proposal.
